

Fall Pharmacology Review

Event Agenda

Saturday, September 21, 2019 at 7:30am CT - 4:30pm CT

i All times listed in Central Time (US & Canada).

Saturday, September 21, 2019

8:00am - 8:30am	Welcome and Update Brian K. Goodroad, DNP, APRN, CNP, FAANP Update on the activities of the Minnesota APRN Coalition. Breakfast provided
8:30am - 10:00am	Medication Assisted Therapy;Tools in the treatment of opioid use disorder Heather Blue PharmD, BCPS, BCGP 1.5 CE Credits This presentation provides an overview of the medications used to treat opioid use disorder, how they work, and the effects they may have on other medications and conditions.
10:00am - 10:15am	Exhibits/Break Coffee/tea/Soda
10:15am - 11:45am	COPD and Asthma: Pharmacology Review and Updates Eric Aguirre, APRN, CNP 1.5 CE Credits This session provides a brief overview of asthma, COPD and addresses the most common medication interventions associated with both diseases.
11:45am - 12:30pm	Lunch/Exhibits Soup and Sandwich Buffet

12:30pm - 1:45pm

New(ish) Agents in Anticoagulation

Jared Van Hooser, Pharm.D.

1.25 CE Credits

Since 2010, four non-vitamin K oral anticoagulants (NOACs) have become commercially available in the United States: dabigatran, rivaroxaban, apixaban, edoxaban. The therapeutic landscape of anticoagulation has been significantly changed by the NOACs. Clinician familiarity with these agents and their individual properties is needed for optimal patient care. This talk will focus on the NOACs, specifically their indication, effectiveness, safety, and convenience.

1:45pm - 2:45pm

PrEP: A Tool for HIV Prevention for the Primary Care Provider

Brian Goodroad, DNP, APRN, CNP, FAANP

1.0 CE Credit

Since 2012, the medication Truvada has been approved for Pre-exposure Prophylaxis (PrEP) to reduce potential HIV transmission. Taken daily by a person without but at risk for HIV, the medication offers a greater than 90% reduction in HIV acquisition when taken correctly. This presentation reviews the current guidelines for PrEP use including pharmacologic considerations for the prescriber.

2:45pm - 3:00pm

Exhibit/Break

Coffee/Tea and Light Snacks

3:00pm - 4:15pm

Contraception Update: From pills to LARCs

Melissa A. Saftner, Ph.D., APRN, CNM, FACNM Stephanie Delkoski, DNP, APRN, WHNP-BC

1.25 CE Credits

This session will synthesize the data on contraception and provide clinical “pearls” you can use immediately in your practice. The speakers will discuss best practices for initiating, maintaining and discontinuing contraception.
