Keynote Presentation - The AI-Powered NP: Advancing Education, Research, and Practice in the Digital Age

Stephen A. Ferrara, DNP, FNP, FAANP, FAAN

1.5 CE Credits

Objectives:

1. Explore the evolving role of artificial intelligence in nurse practitioner education, research, and clinical practice, identifying key opportunities and challenges.
 2. Demonstrate how AI-driven tools enhance clinical decision-making, streamline research processes, and personalize education to support NP competencies and the promotion of patient-centered care.
 3. Develop strategies for integrating AI ethically and effectively into NP practice, ensuring responsible use, data security, and the stewardship of critical thinking in patient care and academia.
