

2018 NADNP/ACDNP National Dermatology Conference

Event Agenda

Monday, April 23, 2018 at 5:00pm ET - Saturday, April 28, 2018 at 2:00pm ET

i All times listed in Eastern Time (US & Canada).

Monday, April 23, 2018

8:00am - 10:00am

Pre-conference Workshop: Poly-L Lactic Acid Injection Workshop

Kevin Harrington, FNP-BC

Separate registration and fee required

8:00am - 4:30pm

Pre-conference Workshop: Wound Care Symposium I

Jarrold P. Kaufman, MD FACS; Ralph Napolitano, DPM; Dennis Orgill, MD FACS

Requires separate registration and fee.

Dermatology Certificate Program Students:

Lectures from 8-12 (part I) is included in the Dermatology Certificate Program Registration. Part II can be purchased on Monday orientation.

Part I:

8-9 Venous Anatomy and Diagnosis of Venous Disease (varicose veins, spider veins, stasis dermatitis)

9-10 Venous leg ulcers / CVI -diagnosis and treatment

10:00-10:15 break

10:15-11:15 The Science of AmnioBand/AmnioBand Clinical Outcomes & Case review

11:15-12:15 Diabetic foot ulceration and wound care to obtain functional outcomes

12:15-1:00 lunch

Part II

1:00-2:00 The Science of AlloPatch Pliable/ AlloPatch Pliable Clinical Outcomes & Case review

2:00-4:30 Dressings for wound care, hands on proper compression techniques and unna boot application

5:00pm - 6:30pm

Pre-conference Lecture: Intro to Dermatology

Debra Shelby, PhD, DNP

Learn benign and skin cancer lesion found in skin exams.

Separate registration and fee required. Included in the Dermatology Certificate Program

Tuesday, April 24, 2018

8:00am - 9:30am

Pre-conference Workshop: Basic Suturing

Debra Shelby, PhD, DNP and Raymond Shulstad, DNP

Requires separate registration and fee. Must be registered for main conference.

Includes local injections, simple interrupted and mattress suturing.

8:00am - 11:30am

Pre-conference Workshop: Cosmetic I-Botulinum Toxin

Kevin Harrington, FNP-BC

Instruction on facial anatomy and applications of Botulinum Toxin.

9:45am - 11:45am

Pre-conference Workshop: Basic Dermatology Procedures

Debra Shelby, PhD, DNP and Raymond Shulstad, DNP

Requires separate registration and fee. Must be registered for main conference.

Includes biopsies, EDC, and cryo overview

12:30pm - 2:30pm

Pre-conference Workshop: Advanced Suturing

Debra Shelby, PhD, DNP and Ray Shulstad, DNP

Requires separate registration and fee. Must be registered for main conference.

Overview on subQ, running and intracuticular stitches

12:30pm - 4:00pm

Pre-conference Workshop: Cosmetic II-Fillers

Kevin Harrington, FNP-BC

Instruction on facial anatomy and fillers.

2:45pm - 5:45pm

Pre-conference Workshop: Basic Dermatology Surgery

Debra Shelby, PhD, DNP and Ray Shulstad, DNP

Requires separate registration and fee. Must be registered for main conference.

Overview on larger punch biopsies, ellipse, and fusiform excisions.

Wednesday, April 25, 2018

8:00am - 10:30am

Pre-conference Workshop: Advanced Surgery

Debra Shelby, PhD, DNP; Jonathan Zager, MD; Ricardo Gonzalez, MD

Requires separate registration and fee. Must be registered for main conference.

Overview on simple full thickness graft, advancement flap, rotational flap, and M-plasty.

8:00am - 10:00am

Pre-conference Workshop: Dermatopathology

Patricia McNab, MD

Requires separate registration and fee. Must be registered for main conference.

Included in the Dermatology Certificate Program

8:00-9:00 am Navigating the Murky Waters of Melanoma Tumor Tables with Interesting Cases

9:00-10:00 What's Bugging you, Interesting Cutaneous Infestations of Florida

8:00am - 11:00am

Pre-conference Workshop: Wound Care Symposium II

Jarrod P. Kaufman, MD FACS and Ralph Napolitano, DPM

Requires separate registration. Must be registered for main conference.

8-9 Overview of wound care grafts and bio-materials (Lecture)

9-11 Hands on lab with grafts

1:00pm - 2:00pm

2018 Main Conference Begins

Opening Speech: Debra Shelby, PhD, DNP

2:00pm - 3:00pm

President's Symposium

James Spencer, MD

Using PDT in Your Practice

Educational Grant: Sun Pharma

3:00pm - 4:00pm

Wound Healing Science

Jarrold Kaufman, MD

1.0 CE Credit

4:15pm - 6:15pm

Cutaneous Oncology Tumor Board

Jonathan Zager, MD Ricardo Gonzalez, MD Patricia McNab, MD James Spencer, MD

2.0 CE Credits

This is your opportunity to experience a tumor board with leading experts in dermatology, surgical oncology, radiation oncology and dermatopathology.

This is an audience participation activity. Please bring a current case to discuss with the experts and explore the most current treatment options. You can also present a previous case and review diagnosis, treatment plan, and patient outcome with with a discussion on what other treatment options could have been considered.

6:15pm - 9:15pm

Exhibit Hall Opens/Exhibit Hall Dinner Party

Thursday, April 26, 2018

8:00am - 9:00am

Breakfast symposium Sponsored by Sun Pharma

Debra Shelby, PhD, DNP

New Advancements in the Treatment of laBCC: Long-Term Clinical Data

9:00am - 10:00am

Oncodermatologic Adverse Events Driving Practices with CREAM Principles

Kathryn Ciccolini, ARNP

10:15am - 11:15am

Do You Really Want to Be a Medical Aesthetic Practitioner?

Kevin Harrington, FNP-BC

11:15am - 12:00pm

Unopposed Exhibit Hall Time

12:00pm - 1:00pm

Lunch symposium Sponsored by Lilly

Leon Kircik, MD

"A Closer Look at Talz"

1:00pm - 2:00pm

Atopic Dermatitis

Allison Lowie, DNP

2:15pm - 5:00pm

Optional Afternoon Sessions 1

See Registration for Details. Afternoon sessions requires additional fees. Included in the Dermatology Certificate Program. Otherwise, afternoon is free to explore Clearwater Beach attractions.

Included in the Dermatology Certificate Program. Conference registrants welcome for additional fee. See registration, separate fee required.

Option 1

Billing and Coding for Dermatology Procedures 2:15pm-3:15pm Debra Shelby, PhD, DNP

Intro to Pathology 3:15-4:15pm Allison Lowie, DNP and Patricia McNab, MD

Pediatric Dermatology 4:30-5:30pm Deborah Angeles, DNP

6:00pm - 7:30pm

President's Cocktail Hour

Friday, April 27, 2018

7:00am - 8:00am

Breakfast Symposium Sponsored by Celgene

Leon Kircik, MD

Are Your Topical Patients Systemic-Ready? An Oral Treatment Option for Moderate to Severe Plaque Psoriasis

8:00am - 9:00am

Bullous diseases

Gisela Torres, MD

9:00am - 10:00am

2018 Update on Psoriasis and Psoriatic Arthritis: Targeted Therapies, from Biologics to Oral Small Molecules

Julio Gonzalez, MD

1.0 CE Credit

10:15am - 11:15am

Case Studies from the Connective Tissue Disorder Clinic

Julio Gonzalez, MD and Gisela Torres, MD

1.0 CE Credit

11:15am - 12:00pm

Unopposed Exhibit Time

12:00pm - 1:00pm

Lunch Symposium Sponsored by AbbVie

Dr. Miriam Bettencourt, MD

A Possibility for Patients With Hidradenitis Suppurativa, Clinical Leadership in Identification and Treatment

1:00pm - 2:00pm

Atypical Uses of Biologics

Miriam Bettencourt, MD

2:45pm - 6:00pm

Optional Afternoon Classes 3

These classes are included in the Dermatology Certificate Program. Requires separate registration and fee. These lectures are a great review for the DCNP certification.

All About Rashes!

Genodermatoses 2:45-3:45p Deborah Angeles, DNP

Emergency Dermatology 3:45-4:45p Paul Rose, MD

Difficult Rashes 5:00-6:00p Raymond Shulstad, DNP

Saturday, April 28, 2018

8:00am - 9:00am

Breakfast Symposium: Sponsored by Sun Pharma

Jeff Wyatt

LEVULAN KERASTICK + BLU-U Billing and Coding Updates

9:00am - 10:00am

Dermatology Pharmacology I

George Cohen MD

10:15am - 11:15am

Dermatology Pharmacology II

George Cohen, MD

11:15am - 12:15pm

Hair Disorders

Paul Rose, MD

12:15pm - 12:45pm

Closing and Drawings

NADNP Board

1:30pm - 4:30pm

Post-Conference Workshop: PRP for Hair Disorders

Paul Rose, MD

Post-Conference Workshop: SEPARATE REGISTRATION and FEE REQUIRED

Didactic Lecture: PRP Hair Restoration

How to Confidently Utilize PRP in your Practice

Choosing the Appropriate Patient for PRP Therapy

Patient Retention, Office Strategies, & Marketing

Treatment Protocols

Physician Demonstration PRP Hair Restoration Treatment

Clinical Hands-On Workshop Rotations

1:30pm - 7:00pm

Post-Conference Symposium It's Fundamental My Dear Watson: A Sherlockian Approach to Dermatology

Dr. Debra Shelby, PhD, DNP

Requires separate registration and fee!

This lecture series is designed to take a systematic approach to understanding the basics of dermatology and is designed as a beginner to intermediate overview of skin anatomy and function, normal findings, common skin cancers and dermatoses during a skin exam. Each session is designed to build on another, creating a solid foundation for practitioners wanting to grasp basic dermatology concepts. As with all great detective work, the registrant will be instructed on the "sherlockian" approach to dermatology. The language of dermatology and use of terminology when describing lesions will be reviewed with application of these terms during the sessions. In addition, an overview of diagnostic tests, procedures, treatments and pitfalls of treatment plans for common skin lesions and dermatoses that make outcomes challenging.

The Scene of the Crime: Basic Skin Anatomy 1:30pm-2:30pm

An overview of basic skin anatomy and function of layers, structures, and appendages.....the scene of the crime!

The Line Up: Describing the Suspects 2:30pm-3:30pm

This session will help you understand primary and secondary morphology for benign lesions, skin cancer, and dermatoses. Instruction on how to approach and apply these terms to describe "the suspects".

The Suspects: Common Criminals and Death Row Inmates 3:45-4:45pm

An overview of commonly found benign lesions, dermatoses, and skin cancers found in a skin examination.

Working the Scene: Line of Questioning, Common Diagnostic Tests, Procedures, and Pathology 4:45pm-5:45pm

A discussion on diagnostic tests, procedures, and basics of specimen preparation needed to determine or confirm your diagnosis. This includes preparation for procedures like consent, local anesthesia, hemostasis, and wound healing.

Punishment that Fits the Crime: First Time and Repeat Offenders 6:00-7:00pm

This session will discuss current treatment options of skin cancer and common dermatoses. In addition, an overview on managing these rashes when they become difficult to treat.
